

## PPE Supplies Information

**\*\*\* This information is provided to help; organisations need to do their own checking to ensure the supplies are what they require & meet standards \*\*\***

Here is the detail I have on PPE. I have tried to update the list each time I have done it, and have trimmed this version down, to just the basic details of people to contact.

This should provide you with details of people who may well have PPE. Inclusion is not necessarily endorsement; you should make all your own sensible checks. Just a note to the many who have contact me on the supplier side, I do not personally supply PPE – I am just trying to help with Covid19 and the PPE shortage to connect suppliers with those in need through my own networks.

**Suppliers: Remember, if you can help with PPE (or anything else), submit it to the UK Government – Here: <https://www.gov.uk/coronavirus-support-from-business>**

**For the Irish Government, please submit here: <https://offersofsupport.gov.ie/offers/new>**

**\*\*\* Just to be clear, no commission or anything in this for me, just trying to help the NHS, Care organisations & others in the UK & Ireland \*\*\***

I hope it helps everyone 😊

Just to respond to some of the many messages I have received:

- I don't hold the prices of items.
- I don't know the stock levels.
- I don't hold the delivery times.
- If suppliers above are contacted and don't reply, let me know I will delete them.
- And no, I personally don't want to sell PPE, just trying to help.
- **But all the above seem to have very good supplies.**

**My purpose in all of this is to connect those who I believe have good supplies of PPE, with those who need them.**

I hope it helps, even if just a little 😊 **Thank you, Martin.**
