- Ensuring that there is no modern slavery or human trafficking in our business, in any part of the work we carry out, with our clients or with our supply chain.
- Promoting awareness of modern slavery risks, even within the context of our relatively small-scale operations.
- Ensuring our organisation's structure, its business and its supply chains do not encourage or allow modern slavery.
- Ensuring we have in place clear policies against but in relation to slavery and human trafficking.
- Committing due diligence in relation to slavery and human trafficking in our business and supply chains.
- Ensuring there are no parts of our business and supply chains where there is a risk of slavery and human trafficking taking place.
- Ensuring that slavery and human trafficking is not taking place in our business or supply chains.
- Providing training and capacity building about slavery and human trafficking for all our staff.
